1. Qualitative Information Regarding this Quarterly Statement

(1) Qualitative Information and Other Matters Concerning Consolidated Operating Results for the First Three Ouarters of Fiscal 2011

1) Overview

The global economy in the third quarter (April 1 – December 31, 2011) remained in the balance due to slowing of strong economic growth in emerging countries such as China in addition to the financial crisis in Europe. Moreover, the electronics industry, in which we are engaged, experienced difficult conditions due to a worldwide decline in demand for semiconductors and electronic components and a slowdown in production activities triggered by the flooding in Thailand.

To increase sales under these circumstances, the Ryosan Group has powerfully promoted growth strategies with our Eighth Medium-Term Management Plan; "strengthening our approach to developing countries with rapid growth (China and India)", "strengthening our business with globalizing Japanese customers" and "strengthening our presence in growth fields (car electronics, social infrastructure, etc.)", which helps move us forward towards "improving profitability."

As a result of the above, as with the contribution made by the expansion of commercial rights of the Renesas Electronics business being quite substantial, the Ryosan Group reported an increase in revenues and a decrease in earnings for results of the third quarter under review, with net sales of 160,119 million yen (up 1.5% from the same period in the previous year). At the same time operating income came to 2,411 million yen (down 49.9%), ordinary income was 3,177 million yen (down 40.9%) due to the increase in business costs that were required in order to strengthen the above Renesas Electronics business. Net income was 1,429 million yen (down 56.7%) due to an increase in tax expense resulting from disposal of differed tax asset, accompanied by the corporate tax reforms.

2) Business Segment Information

a. Semiconductors

We sell memories, system LSIs and discrete semiconductors, and develop system LSIs. In this consolidated first three quarters, sales of system LSIs for in-vehicle electrical components, etc. increased, with net sales of 96,970 million yen (up 7.9% from the same period previous year), but operating income came to 1,669 million yen (down 51.8%).

b. Electronic Components

We sell display devices, power supplies and electromechanical components. In this consolidated first three quarters, sales of electromechanical components for game console, etc. decreased, with net sales of 41,687 million yen (down 7.3% from the same period previous year) and operating income of 1,502 million yen (down 19.7%).

c. Electronic Equipment

We sell systems equipment and facilities equipment. In this consolidated first three quarters, sales of system equipment for in-vehicle electrical components, etc. decreased, with net sales of 17,260 million yen (down 3.8% from the same period previous year) and operating income of 507 million yen (down 13.5%).

d. Ryosan Products

We produce and sell heat sinks (devices that dissipate the heat generated by semiconductors). In this consolidated first three quarters, sales of heat sinks for flat screen TVs etc. decreased, with net sales of 4,201 million yen (down 14.2% from the same period previous year) and operating income of 210 million yen (down 51.8%).

(2) Qualitative Information and Other Matters Concerning Consolidated Financial Position for the End of the

First Three Quarters of Fiscal 2011

At the end of this first three quarters, total assets had decreased by 2,503 million yen, as compared with the level at the end of the previous fiscal year, and came to 160,975 million yen.

Also, net assets decreased by 3,375 million yen, as compared with the level at the end of the previous fiscal year,

and came to 114,405 million yen, with the ratio of net assets to total assets being 71.0%.

(3) Qualitative Information and Other Matters Concerning Consolidated Forecasts for the Fiscal Year Ending

March 31, 2012

1) Overall Business Performance Forecast

Looking ahead, the uncertainty surrounding the global economy will most probably further increase due to the financial crisis in Europe and the prolonged appreciation of the yen. Against the backdrop of this forecasted operating environment, the Ryosan Group will continue to promote and pursue two key initiatives of our Eighth Medium-Term Management Plan: "Construction of a management structure strong enough to survive in the global age" and "Exploitation of emerging markets to support future growth."

Although at the present point, no modifications have been made to our consolidated earnings forecast for the term ending March, 2012 that was announced on June 14, 2011, Ryosan Group is currently analyzing the effects on our consolidated earnings which may have been caused by the recent economic trends and the flooding in the Thailand, and we will announce them promptly as need.
